

Request for information number 022024/AN

Announcement

Design, supply, construction, testing and commissioning of channels mobile dredger

The Arab Potash Company (APC) is the eighth largest Potash Producer Worldwide by Volume of production and the Sole Producer of Potash in the Arab World. It also has one of the best track records among Jordanian corporations in work safety, good governance, sustainable community development, and environmental conservation.

The Arab Potash Company (APC) invites potential international bidders for request for information for the **design, supply, construction, testing and commissioning of channels mobile dredger**, accordingly, Contractors shall provide a budgetary offer.

The scope shall include Design, supply, fabricate, manufacture, transport, install/ assembly, testing, commissioning and warranty of special salt machine dredger, with sufficient size and capacity to dredge brine channels in two locations; along salt pond SP0A and the entrance channel of salt pond no. SP-0B, in addition to the ability to operate this dredger inside the evaporating ponds other than the channels that contain salt and Carnallite.

Proposals shall include a technical documentation and a Cost Breakdown.

International applicants that are in possession of the required pertinent expertise are invited to submit their offer in two closed, sealed, and separate envelopes; the first contains the commercial bid; the second contains the technical bid no later than Monday, March 25, 2024, noting that applicants can arrange with APC for site visit if deemed necessary.

Bid submission place is Arab Potash Company- Plant Site (Safi Site).
