

Request for proposal number 04/2024/GS Announcement

Design, Supply, Installation, Testing & Commissioning of a GNSS Survey Base Station

The Arab Potash Company (APC) is the eighth largest Potash Producer Worldwide by Volume of production and the Sole Producer of Potash in the Arab World. It also has one of the best track records among Jordanian corporations in work safety, good governance, sustainable community development, and environmental conservation.

The Arab Potash Company (APC) invites potential international bidders for request for proposal for the **Design, Supply, Installation, Testing & Commissioning of a GNSS Survey Base Station** accordingly, Contractors shall provide a budgetary offer.

The scope shall include Design, supply, testing, commissioning, and training for a One GNSS Survey Base Station as APC owns and operates five base stations located inside their premises; these base stations are connected to the Client's dredgers using a standard communication protocol (CMR, CMR+, or RTCM v3). the Client wishes to procure one master base station that is capable to communicate with all the rover devices located onboard the dredgers.

Proposals shall include a technical documentation and a Cost Breakdown.

International applicants that are in possession of the required pertinent expertise are invited to submit their offer in sealed two closed, sealed, and separate envelopes; the first contains the commercial bid; the second contains the technical bid no later than Monday, May 27th, 2024, noting that applicants can arrange with APC for site visit if deemed necessary.

RFP submittals shall be by email to Hamdi.m@arabpotash.com in two separate attachments; the first one is Technical Documentation while the second one is Cost Breakdown.
